

Double Slide with Swing

Double Slide with Swing

A certified, maintenance-free A-shaped tower with a rung ladder climber and a slide, complemented by two hanging swings. On one side there is a classic seat and a baby seat, and on the other side a swing nest. The baby seat includes a barrier with a crotch bar between the child's legs, preventing slipping or falling, while also providing back support. The nest is suitable for swinging several children at once, including lying down for a non-traditional play experience. The nest has a safety suspension with a locking chain. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL panels and HDPE plastic used are chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and resistant to breakage. This prevents children from being injured by sharp edges or fragments.

Specifications

The Double Slide with Swing is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	9.20 x 2.80 x 1.90 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	9.00 x 7.10 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, Polyurethane, PA, Rubber, stainless steel fasteners and chains
