

## Double Slide with Swing

Double Slide with Swing

A certified maintenance-free A-frame tower with a ladder climber and a slide, complemented by two hanging swings. One side has a classic seat and a baby seat, the other has a swinging nest seat. The baby seat includes a bar between the child's legs that prevents sliding or falling out, while also providing back support. The nest seat is suitable for young children to swing while lying down, or for several children at once, and has a safety suspension with a locking chain. The steel structure is weather-resistant thanks to hot-dip galvanising and a durable powder-coated finish. The HPL material and HDPE plastic used are chemically resistant, UV-resistant, colorfast, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of injury to children from sharp edges or splinters.

### Specifications

The Double Slide with Swing is certified according to STN EN 1176

|                               |                                                                                                               |
|-------------------------------|---------------------------------------------------------------------------------------------------------------|
| <b>Age Group:</b>             | 3-14 years                                                                                                    |
| <b>Product Dimensions:</b>    | 9.40 x 3.60 x 2.40 m (L x W x H)                                                                              |
| <b>Max. Fall Height:</b>      | up to 1.50 m                                                                                                  |
| <b>Safety Surfacing Area:</b> | 9.40 x 8.50 m (according to STN EN 1176-1)                                                                    |
| <b>Materials:</b>             | Galvanised and powder-coated steel, HPL, LDPE, polyurethane, PA, rubber, stainless steel fasteners and chains |
