

Double Slide with Swing

Double Slide with Swing

Two certified maintenance-free A-frame towers with a ladder climber and slide, complemented by a hanging swing. You can choose between a classic seat or a baby seat. The baby seat includes a guard with a divider between the child's legs, preventing sliding or falling out, while also providing back support. The steel structure is weather-resistant thanks to galvanising and coating with durable powder paint. The HPL panels and HDPE plastic used are chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and resistant to breakage. This eliminates the risk of injury to children from sharp edges or fragments.

Specifications

The Double Slide with Swing is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	7.50 x 2.80 x 1.90 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	10.60 x 7.10 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, PA, rubber, stainless steel fasteners and chains
