

Spring Rocker - Carriage

Spring Rocker - Carriage

The materials and construction of the carriage-themed spring rocker guarantee long service life and safety. The steel spring with a durable surface finish and HPL panels ensure long-lasting use, color stability, and safety. The HPL material is chemically resistant, UV-resistant, non-toxic, recyclable, and resistant to breakage. This eliminates the risk of children being injured by sharp edges or fragments. Spring rockers can be installed on grass, gravel, or sand playgrounds, or a grass mat, rubber mat, or EPDM surface can be used beneath the rocker. All spring rockers meet the safety standard STN EN 1176.

Specification

The Spring Rocker - Carriage is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	1.50 x 0.90 x 1.60 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	4.00 x 3.40 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, PA, stainless steel fasteners
