

## Spring Rocker - Unicorns

### Spring Rocker - Unicorns

The materials and construction of the unicorn-themed spring rocker ensure long service life and safety. The steel spring with a durable surface finish and the HPL panels guarantee long-lasting durability, color stability, and safety. The HPL material is chemically resistant, UV-resistant, non-toxic, recyclable, and resistant to breakage. This eliminates the risk of children being injured by sharp edges or splinters. Spring rockers can be installed on grass, a gravel or sand playground, or you can use a grass mat, rubber mat, or EPDM surfacing beneath the rocker. All spring rockers comply with the STN EN 1176 safety standard.

### Specifications

The Spring Rocker - Unicorns is certified according to STN EN 1176

|                               |                                                                        |
|-------------------------------|------------------------------------------------------------------------|
| <b>Age Group:</b>             | 3-14 years                                                             |
| <b>Product Dimensions:</b>    | 0.90 x 0.90 x 0.90 m (L x W x H)                                       |
| <b>Max. Fall Height:</b>      | up to 0.99 m                                                           |
| <b>Safety Surfacing Area:</b> | 3.30 x 3.40 m (according to STN EN 1176-1)                             |
