

Spring Rocker Clover

Spring Rocker Clover

The materials and construction of the clover-themed spring rocker guarantee long service life and safety. The steel spring with a durable surface finish and HPL panels ensure long-lasting durability, color stability, and safety. The HPL material is chemically resistant, UV-resistant, non-toxic, recyclable, and resistant to breakage. This eliminates the risk of children being injured by sharp edges or fragments. Spring rockers can be installed on grass, a gravel or sand playground surface, or a grass mat, rubber mat, or EPDM surface can be used underneath the rocker. All spring rockers meet the safety standard STN EN 1176.

Specifications

The Spring Rocker Clover is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	1.00 x 1.00 x 0.80 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	Ø 3.50 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, PA, stainless steel fasteners
