

## Spring Rocker - Horse

Spring Rocker - Horse

The materials and construction of the horse-themed spring rocker guarantee long service life and safety. The steel spring with a durable surface finish and HPL panels ensure long-lasting durability, color stability, and safety. The HPL material is chemically resistant, UV-resistant, non-toxic, recyclable, and resistant to breakage. This means there is no risk of injury to children from sharp edges or fragments. Spring rockers can be installed on grass, a playground with gravel or sand, or you can use a grass mat, rubber mat, or EPDM surfacing underneath the rocker. All spring rockers comply with the STN EN 1176 safety standard.

### Specifications

The Spring Rocker - Horse is certified according to STN EN 1176

|                               |                                                                        |
|-------------------------------|------------------------------------------------------------------------|
| <b>Age Group:</b>             | 3-14 years                                                             |
| <b>Product Dimensions:</b>    | 0.90 x 0.30 x 0.90 m (L x W x H)                                       |
| <b>Max. Fall Height:</b>      | up to 0.99 m                                                           |
| <b>Safety Surfacing Area:</b> | 3.30 x 2.70 m (according to STN EN 1176-1)                             |
