

## Hanging Swing

### Hanging Swing

The hanging swing for one child is made of hot-dip galvanised steel finished with a stove-enamelled powder coating. The fasteners are made of stainless steel and covered with plastic protective caps to increase durability and safety. The swing is certified to STN EN 1176. A grass mat is recommended as the safety surfacing.

### Specifications

The Hanging Swing is certified according to STN EN 1176

|                               |                                                                                      |
|-------------------------------|--------------------------------------------------------------------------------------|
| <b>Age Group:</b>             | 3-14 years                                                                           |
| <b>Product Dimensions:</b>    | 1.50 x 2.10 x 1.80 m (L x W x H)                                                     |
| <b>Max. Fall Height:</b>      | up to 0.99 m                                                                         |
| <b>Safety Surfacing Area:</b> | 6.50 x 2.00 m (according to STN EN 1176-1)                                           |
