

Rope Structure - UFO

Rope Structure - UFO

A rope climbing structure with a circular rope climber, four ladders, and hanging discs. The product is made of galvanised steel with a high-quality powder-coated finish, and the joints are stainless steel and covered with plastic protective caps to increase the safety and service life of the connections. The ropes are made of polyester fibers wound around a central core. This rope construction increases its strength and resistance to mechanical stress. Polyester itself has many positive properties: it is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and offers high strength. The rope structure is certified according to STN EN 1176.

Specifications

The Rope Structure - UFO is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	4.30 x 3.30 x 2.10 m (L x W x H)
Max. Fall Height:	up to 2.00 m
Safety Surfacing Area:	7.50 x 7.20 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, polypropylene rope, stainless steel fasteners
