

Staircase Bridge

Staircase Bridge

The Staircase Bridge is a themed bridge product with fixed HPL treads that catches the eye from a distance. The treads are mounted at varying heights to increase play challenge and fun. The structure is manufactured from hot-dip galvanised steel with a powder-coated finish. The HPL material used is chemically resistant, UV-resistant and color-stable, non-toxic, recyclable, and resistant to breakage - eliminating the risk of injury from sharp edges or splinters. All fasteners are stainless steel.

Specifications

The Staircase Bridge is certified according to STN EN 1176.

Age Group:	3-14 years
Product Dimensions:	2.00 x 1.00 x 1.30 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	5.00 x 4.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, PA, HPL panels min. thickness 6, 10, and 13 mm, HDPE plastic, stainless steel fasteners
