

Double-Tower Combined Play Structure - Tall

Double-Tower Combined Play Structure - Tall

This double-tower combined play structure features two towers connected by a tunnel. Children can access the structure via steps or a ladder, and come back down using the slide. Its striking design invites children to play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL panels used are chemically resistant, UV-resistant - colorfast, non-toxic, recyclable, and resistant to breakage, preventing injury to children from sharp edges or fragments. All joints are stainless steel and covered with plastic protective caps for increased durability and safety.

Specifications

The Double-Tower Combined Play Structure - Tall is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	5.90 x 0.90 x 3.60 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	9.40 x 4.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, stainless steel fasteners
