

Double-Tower Combined Play Structure - Tall

Double-Tower Combined Play Structure - Tall

Double-tower combined play structure - two towers connected by a tunnel. Children can access the structure by steps or by climbing the climbing wall with handholds, and come down via the slide. The striking design invites play from a distance. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL material used is chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of injury to children from sharp edges or fragments. All joints are stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Double-Tower Combined Play Structure - Tall is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	3.90 x 3.40 x 2.50 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	7.00 x 6.90 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, stainless steel fasteners
