

Rope Product - Floor

Rope Product - Floor

The Rope Floor is a mountain waiting to be conquered right away. Children's imagination knows no limits - they can pretend to be climbers, adventurers, or stuntmen. On every playground, this rope play product becomes a favorite spot for both younger and older children. The joints are made of stainless steel and covered with plastic protective caps to increase safety and extend the service life of the connections. The ropes are made of polyester fibers wound around a central core. This rope construction increases its strength and resistance to mechanical stress. Polyester itself offers many benefits: it is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and features high strength.

Specifications

The Rope Product - Floor is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	2.70 x 2.60 x 1.30 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	5.90 x 5.70 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, polypropylene rope, stainless steel fasteners
