

Cableway

Cableway

Cableway - a huge structure that offers plenty of play opportunities. Thanks to its size, up to 60 children can play on it at once. The structure is made of galvanised steel treated with a layer of stove-enamelled paint - KOMAXIT. All joints are made of stainless steel and covered with plastic protective caps to increase the safety and service life of the connections. The ropes are made of polyester fibers wound around a central core. This rope construction increases its strength and resistance to mechanical stress. Polyester itself has many positive properties: it is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and features high strength.

Specifications

The Cableway is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	14.30 x 9.40 x 2.20 m (L x W x H)
Max. Fall Height:	up to 2.20 m
Safety Surfacing Area:	18.50 x 13.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HDPE, HPL, polypropylene rope, stainless steel fasteners
