

Rope Climbing Wall - Low Wall

Rope Climbing Wall - Low Wall

This rope climbing wall invites children to compete in climbing speed and challenge each other to reach new height records. The rope play product is made of galvanised steel with a high-quality finish, with stainless steel joints covered by plastic protective caps to increase the safety and service life of the connections. The ropes are made of polyester fibers wound around a central core. This rope construction increases its strength and resistance to mechanical wear. Polyester itself offers many benefits: it is resistant to microorganisms and weathering, dries quickly after rain, is colorfast, and features high strength. The Rope Climbing Wall is certified according to STN EN 1176.

Specifications

The Rope Climbing Wall - Low Wall is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	2.00 x 0.10 x 2.00 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	5.00 x 3.10 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, polypropylene rope, stainless steel fasteners
