Slide

A certified maintenance-free A-frame tower with a ladder climber and a slide. A basic structure that fits even in a small open space while still giving you a fully-fledged play product. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL material and HDPE plastic used are chemically resistant, UV-resistant, colorfast, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of injury to children from sharp edges or splinters. All fasteners are made of stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Slide is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	1.00 x 2.80 x 1.90 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	4.00 x 6.30 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, PA, stainless steel fasteners
