

Small Rope Igloo

Small Rope Igloo

This small rope igloo features three side climbing nets and one "roof" net, complemented by hanging balance stones. The product is made of galvanised steel with a high-quality powder-coated finish, and the joints are made of stainless steel and covered with plastic protective caps to increase the safety and service life of the connections. The ropes are made of polyester fibers with a steel core, wound around the center. This rope construction increases its strength and resistance to mechanical stress. Polyester itself has many positive properties: it is resistant to microorganisms and weather influences, dries quickly after rain, is colorfast, and is characterized by high strength.

Specifications

The Small Rope Igloo is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	3.60 x 4.00 x 2.20 m (L x W x H)
Max. Fall Height:	up to 2.20 m
Safety Surfacing Area:	Ø 8.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HDPE, HPL, polypropylene rope, stainless steel fasteners
