

Inclusive Swing

Inclusive Swing

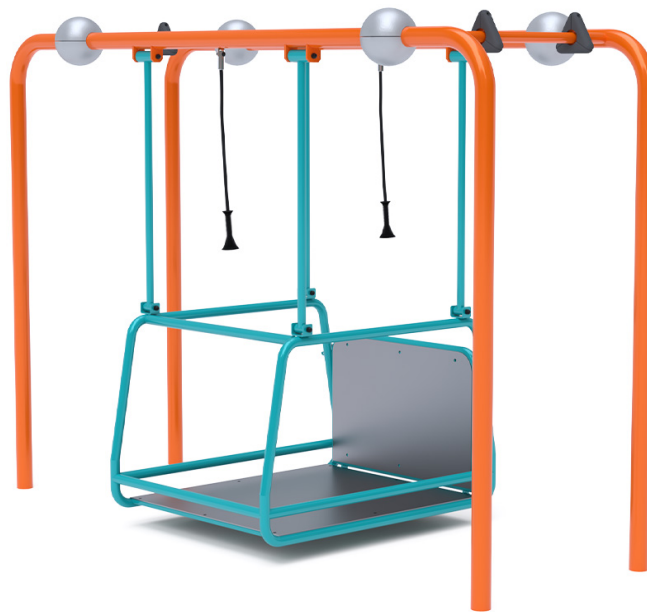

An inclusive hanging swing with a platform that allows all children, without exception, to enjoy swinging together. The structure includes a foldable access ramp and a floor made of anti-slip tear-drop patterned sheet metal. The frame features a system that securely locks a wheelchair in place, preventing unwanted movement of the wheelchair on the platform. The frame of the hanging swing has a powder-coated finish. Fasteners are made of stainless steel and covered with plastic protective caps to increase durability and safety. The area around the structure is clearly marked as off-limits while the swing is in use.

Specifications

The Inclusive Swing is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	1.40 x 3.20 x 2.10 m (L x W x H)
