

Triple Slide with Swing

Triple Slide with Swing

Three certified, low-maintenance A-shaped towers. Two feature a ladder climber and a slide, while the third features a climbing net and a slide, all connected by two double hanging chain swings. One swing is fitted with two classic seats, the other with two baby seats. The baby seat includes a protective enclosure with a bar between the child's legs, preventing sliding or falling out, while also providing back support. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL panels and HDPE plastic used are chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and resistant to breakage, eliminating the risk of injury from sharp edges or fragments.

Specifications

The Triple Slide with Swing is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	14.00 x 2.80 x 1.90 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	17.20 x 7.10 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, PA, rubber, stainless steel fasteners and chains
