

Triple Slide with Swing

Triple Slide with Swing

Three certified maintenance-free A-frame towers. Two feature a ladder climber with slide, while the third features a climbing net with slide, all connected by two hanging swings. One double swing can hold two classic seats, two baby seats, or a combination of both. The second swing is a hanging nest swing. The baby seat includes a protective barrier with a crotch strap between the child's legs, preventing sliding out or falling, while also providing back support. The nest swing is suitable for swinging several children at once, including in a lying position for a more unconventional play experience. The nest swing has a safety suspension with a locking chain. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL panels and HDPE plastic used are chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and resistant to breakage. This eliminates the risk of injury to children from sharp edges or fragments.

Specifications

The Triple Slide with Swing is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	13.00 x 2.80 x 1.90 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	16.10 x 7.10 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, PA, rubber, stainless steel fasteners and chains
