

Triple Slide with Swing

Triple Slide with Swing

Three certified maintenance-free A-frame towers. Two feature a ladder climber and a slide, one features a rope net and a slide, and they are connected by two hanging swings. One double swing can have two classic seats, two baby seats, or a combination of both. The other swing is a swinging nest seat. The baby seat includes a bar between the child's legs that prevents sliding or falling out, while also providing back support. The nest seat is suitable for swinging several children at once, including lying down for a different kind of fun, and has a safety suspension with a locking chain. The steel structure is weather-resistant thanks to galvanising and a durable powder-coated finish. The HPL material and HDPE plastic used are chemically resistant, UV-resistant, colorfast, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of injury to children from sharp edges or splinters.

Specifications

The Triple Slide with Swing is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	13.00 x 3.60 x 2.40 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	16.10 x 8.50 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, Polyurethane, PA, Rubber, stainless steel fasteners and chains
