Seesaw - Dragon

The most fun always comes with a friend. That's why a seesaw should be part of every playground. It helps children learn to cooperate, while also improving their coordination and motor skills. When selecting playground products, the choice of materials plays a key role, as it has a major impact on the playground's service life. That's why we focus on quality materials, careful assembly, and compliance with all applicable standards. The HPL material used is chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and resistant to breakage. This eliminates the risk of injury to children from sharp edges or fragments. All joints are made of stainless steel and covered with plastic protective caps to enhance durability and safety.
