

JURA Picnic set

PSJ100

The picture is only illustrative, it may not exactly match the product described.

Product description	Picnic set suitable for the natural environment. The multifunctional set of wooden elements - a bench, a table, and a support stand for bicycles - consists of seven prisms made of solid wood. The prisms are connected to each other with stainless steel screws. The lower prisms have a hidden anchoring to the concrete foundation. The wood is constantly working and significant cracks underline the natural appearance of the material.	
Material	Solid wood: douglas fir	DOWNLOAD PDF SAMPLER >
Surface treatment	Without surface treatment	
Dimensions	4000×4500×750 mm	
Anchoring	Anchoring is done with four stainless steel threaded rods M10 of length min. 200 mm and four nut cover caps M10 with a chemical anchor into concrete foundations prepared in advance. A detailed drawing is available for download on the website for each particular product.
