

Spring Rocker - Bar

Spring Rocker - Bar

The materials and construction of the spring rocker guarantee long service life and safety. The steel spring with a durable surface finish and HPL material ensure long-lasting durability, color stability, and safety. The HPL material is chemically resistant, UV-resistant, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of children being injured by sharp edges or fragments. Spring rockers can be installed on grass, gravel, or sand playgrounds, or you can use grass matting, rubber matting, or EPDM surfacing underneath. All spring rockers meet the safety standard STN EN 1176.

Specifications

The Spring Rocker - Bar is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	0.50 x 0.30 x 0.80m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	3.00 x 2.70 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, PA, stainless steel fasteners
