

Inclusive Carousel - 2.5 m

Inclusive Carousel - 2.5 m

This carousel offers fun for all children without exception, thanks to its barrier-free design. It provides a safe space for 2 wheelchairs, accompanying persons, and children, carrying up to 10 users at once. The carousel structure is made of hot-dip galvanised steel with a powder-coated finish. The seats and floor are made of eco-friendly HPL material, which is UV-resistant, non-toxic, recyclable, and shatter-resistant. This eliminates the risk of injury to children from sharp edges or fragments.
