

Single-Tower Set

Single-Tower Set

This single-tower combined play structure features a tower with a small roof, which children can climb via the climbing wall or steps and descend using the slide. The green-brown, nature-inspired design invites children to play from a distance. The HPL material used is chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and resistant to breakage. This eliminates the risk of injury to children from sharp edges or splinters. The posts are made of BSH (glued laminated) timber beams treated with a weather-resistant and UV-resistant coating. All joints are stainless steel and covered with plastic protective caps for increased durability and safety.

Specifications

The Single-Tower Set is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	3.00 x 1.50 x 3.20 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	6.30 x 4.50 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, PA, HPL panels min. thickness 6, 10, and 13 mm, HDPE plastic, stainless steel fasteners
