

Slide with Swing

Slide with Swing

A certified maintenance-free A-frame tower with a ladder climber and slide, complemented by a hanging double swing with a classic seat and baby seat. The child's seat includes a guard with a crossbar between the child's legs, preventing sliding or falling out while swinging, while also providing back support. The steel structure is weather-resistant thanks to hot-dip galvanizing and a durable powder-coated finish. The HPL panels and HDPE plastic used are chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and resistant to breakage. This prevents children from being injured by sharp edges or fragments. All joints are stainless steel and covered with plastic protective caps for enhanced durability and safety.

Specifications

The Slide with Swing is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	5.20 x 3.60 x 2.40 m (L x W x H)
Max. Fall Height:	up to 1.50 m
Safety Surfacing Area:	6.70 x 8.50 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, LDPE, PA, Rubber, stainless steel fasteners and chains
