

Spring Rocker - Horse

Spring Rocker - Horse

The greatest fun always comes with a friend. That's why a spring rocker should be part of every playground. It helps children learn to cooperate, while also improving coordination and developing motor skills. When selecting playground products, the choice of materials plays a crucial role, as it has a major impact on the playground's service life. That is why we focus on high-quality materials, careful assembly, and compliance with all applicable standards. The HPL material used is chemically resistant, UV-resistant - color-stable, non-toxic, recyclable, and resistant to breakage. This eliminates the risk of injury to children from sharp edges or splinters. All joints are made of stainless steel and covered with plastic protective caps to increase durability and safety.

Specifications

The Spring Rocker - Horse is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	3.00 x 0.30 x 1.20 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	5.20 x 2.50 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, HPL, Rubber, Stainless steel fasteners
