

RUBIG Bicycle stand

SKR1

The picture is only illustrative, it may not exactly match the product described.

Product description	A modular parking system for bicycles. The system meets the basic requirements for safe bicycle locking. A cyclist's icon or vertical groove can be used for passing a bicycle lock through. Due to its simple design, it is suitable for using in a wide range of different environments. The construction is from steel weldment made of steel flame-cut parts 20 mm thick. At the bottom part there are welded four stainless steel plates with holes for possible anchoring to the base.
Material	Steel grade 11
Surface treatment	Galvanized steel treated with powder coating in colour variations: RAL 7016 (anthracite grey), RAL 9005 (jet black), RAL 9006 (white aluminium), RAL 9007 (grey aluminium), RAL 9003 (white), RAL 3003 (red), RAL 6021 (green), shade of Corten (rusty). Other RAL shades according to RAL sampler on request only.
Dimensions	200×20×880 mm / 28 kg
Anchoring	Anchoring is done with four stainless steel threaded rods M10 of length min. 200 mm and four nut cover caps M10 with a chemical anchor into concrete foundations prepared in advance. A detailed drawing is available for download on the website for each particular product.
