

SANDWICH Bicycle stand

SKD2

The picture is only illustrative, it may not exactly match the product described.

Product description	A supporting parking pillar for bicycles. The basic element is a steel weldment 40x20 mm which a strip 40x4 mm is attached to. Between the weldment and strip there is rubber strip from EPDM material 50x5 mm which is thicker than the steel construction. The rubber strip protects a bicycle frame from its possible damage; the bicycle does not touch the metal part of frame at all. There is a cyclist's icon located at the top of bicycle stand. At the bottom part there is an anchor plate for anchoring to the base.
Material	Steel grade 11, EPDM material
Surface treatment	Galvanized steel treated with powder coating in colour variations: RAL 7016 (anthracite grey), RAL 9005 (jet black), RAL 9006 (white aluminium), RAL 9007 (grey aluminium), RAL 9003 (white), RAL 3003 (red), RAL 6021 (green), shade of Corten (rusty). Other RAL shades according to RAL sampler on request only.
Dimensions	963×140×800 mm
Anchoring	Anchoring is done with four stainless steel threaded rods M10 of length min. 200 mm and four nut cover caps M10 with a chemical anchor into concrete foundations prepared in advance. A detailed drawing is available for download on the website for each particular product.
