

WELDI Bicycle stand

SKW8

The picture is only illustrative, it may not exactly match the product described.

Product description

A general-purpose and reliable bicycle stand. The bicycle stand is designed so that a bicycle stands firmly and stably, as well as its rim strings are not damaged. The bicycle can be parked comfortably and locked securely to the massive frame. The construction consists of steel weldment made of bent steel tubes $\varnothing 60/3$ mm and $\varnothing 38/3$ mm.

Material

Steel grade 11 / stainless steel AISI 304.

Surface treatment

Hot-dip zinc / passivated stainless steel

Dimensions

3920×520×860 mm / 50 kg

Anchoring

Anchoring is done with four stainless steel threaded rods M10 of length min. 200 mm and four nut cover caps M10 with a chemical anchor into concrete foundations prepared in advance. A detailed drawing is available for download on the website for each particular product.
