

ZET Litter bin

KZE22

The picture is only illustrative, it may not exactly match the product described.

Product description

The body of the basket consists of a weldment made of 3 and 4 mm thick sheet metal sections welded on a column made of 80x40 mm bent U-profile made of galvanized steel class 11 and subsequently treated with powder burning paint. The cladding is made of bent L profile 25x25 mm. These are 22 L profiles welded to the basket body. Inside the basket there is a removable galvanized container of thickness. 0,8 mm with a volume of 40 l. The front opening at the front of the structure is designed for waste disposal.

Material

Construction: steel grade 11
