

BLED Seat

LBD21

The picture is only illustrative, it may not exactly match the product described.

Product description	Concrete seat consisting of two parts, concrete castings. To the lower part, the leg, it is possible to add LED lighting illuminating the space under the seat. This seat can be combined with the LBD41 model. This combination creates larger areas for rest.
Material	Concrete grade C 35/45, in natural or anthracite shade (possible occurrence of small capillary cracks that do not affect the strength of the structure)
Surface treatment	The concrete is impregnated.
Dimensions	600×600×425 mm
Anchoring	With its own weight. It is possible to fix the seat through a chemical anchor with four stainless steel threaded rods M10 of length min. 100 mm to the ground. A detailed drawing is available for download on the website for each particular product.
