

FLORIA GRAND Bench

LFG2BB

The picture is only illustrative, it may not exactly match the product described.

Product description	A steel structure supporting a wooden seat and any optional accessories (tables, backrests), connected by M6 stainless steel bolts to concrete planters with a diameter of 800 mm and a height of 400 mm, which form the bench legs. The structural frame (laser-cut steel plate components, 4 and 5 mm thick) supports transversely oriented wooden slats fixed from below with stainless steel screws. The seat consists of 24 rectangular-profile slats (144 × 21 mm), each 808 mm long, trimmed at the ends of the bench to match the shape of the concrete planters. Individual benches are also available in variants allowing connection into one continuous line, including joining options at angles of 0°, 30°, 45°, 60° and 90°, or even “branching” into 2 or 3 continuing lines.
Material	Construction: steel grade 11 Concrete: UHPC Solid wood: tropical wood
Surface treatment	Galvanized steel treated with powder coating in colour variations: RAL 7016 (anthracite grey), RAL 9005 (jet black), RAL 9006 (white aluminium), RAL 9007 (grey aluminium), RAL 9003 (white), RAL 3003 (red), RAL 6021 (green), shade of Corten (rusty). Other RAL shades according to RAL sampler on request the web. Concrete in shades: gray, sandy light Tropical wood – treated with teak oil
Dimensions	3490×808×426 mm / 268 kg
Anchoring	Due to its weight, the bench does not need anchoring. A detailed drawing is available for download on the website for each particular product.
